

User Reviews

"I cannot speak highly enough of this system or its potential. The best testimony I can give about LEADRS is the large number of arrests that I have been able to make and process simply because I am spending less time tied to a desk or in court and more time on the road where I need to be."

- Michael Scheffler
Corporal IV
Texas Highway Patrol

"The Texas District & County Attorneys Association (TDCAA) supports the Law Enforcement Advanced DUI/DWI Reporting System (LEADRS) and the continuing efforts of the Texas Municipal Police Association (TMPA) to support and improve this valuable system."

- W. Clay Abbott,
DWI Resource Prosecutor
TDCAA

"I have been a user and instructor of the LEADRS system since our department implemented it in 2006. I can say, without a doubt, that it dramatically reduces reporting time for DWI offenses. After becoming proficient with the system I am able to complete a case in about an hour, and a search warrant in about 30 minutes. This is substantial time savings compared to our old way of doing things."

- Christopher Clements #591
DWI Enforcement
Lewisville Police Department
